#### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

##### Level - 0 DFD (Context Diagram)

##### Level - 1 DFD (Order Placement Process)

## User Stories

Use the below template to list all the user stories for the product.

| User Type | Functional Requirement (Epic) | User Story Number | User Story / Task                                                      | Acceptance criteria               | Priority | Release  |
|-----------|-------------------------------|-------------------|------------------------------------------------------------------------|-----------------------------------|----------|----------|
| Customer  | Registration                  | USN-1             | As a customer, I can register using email and password.                | Account created successfully      | High     | Sprint-1 |
| Customer  | Login                         | USN-2             | As a customer, I can login securely.                                   | Dashboard accessible after login  | High     | Sprint-1 |
| Seller    | Registration                  | USN-3             | As a seller, I can create my account.                                  | Seller account created            | High     | Sprint-1 |
| Seller    | Product Listing               | USN-4             | As a seller, I can add product name, price, category, stock and image. | Product listed in catalog         | High     | Sprint-2 |
| Admin     | User Management               | USN-5             | As an admin, I can view and manage all customers and sellers.          | User list displayed               | High     | Sprint-2 |
| Customer  | Product Search                | USN-6             | As a customer, I can search products by category.                      | Relevant products displayed       | High     | Sprint-3 |
| Customer  | Cart Management               | USN-7             | As a customer, I can add and update items in my cart.                  | Cart updated successfully         | High     | Sprint-3 |
| Customer  | Order Placement               | USN-8             | As a customer, I can checkout and place an order.                      | Order created successfully        | High     | Sprint-3 |
| Seller    | Order Management              | USN-9             | As a seller, I can update the status of orders for my products.        | Status updated correctly          | High     | Sprint-4 |
| Customer  | Order History                 | USN-10            | As a customer, I can view my previous orders.                          | Previous orders displayed         | Medium   | Sprint-4 |
| Customer  | Order Cancellation            | USN-11            | As a customer, I can cancel an order before it ships.                  | Order status updated to Cancelled | Medium   | Sprint-4 |
| Admin     | Dashboard                     | USN-12            | As an admin, I can monitor products, customers, and orders.            | Dashboard displays system data    | Medium   | Sprint-4 |
