Empathy Map Canvas:

In the case of ShopEZ, an empathy map was developed considering customers looking for a convenient way to discover and purchase products online. Customers usually face frustrations such as scattered listings across multiple sites, unreliable sellers, and difficulty tracking their orders. These customers expect an easy yet secure way of searching, purchasing, and tracking their orders. At the same time, sellers need a straightforward way to list and manage their products, while the platform administrators need tools to monitor users, products and orders. Considering this data, ShopEZ came into being as a product that offers users secure authentication, a searchable product catalog, cart and checkout features, and role-based dashboards.

Empathy Map (Detailed Analysis)

Who are empathizing with?

Person: A customer looking to purchase products conveniently online.

Situation: Needs to find the right product from a trustworthy seller and complete the purchase quickly.

Role: A customer who searches products, adds them to cart, checks out, and tracks order status on ShopEZ.

Goal

To find and purchase quality products from verified sellers quickly and conveniently, with a smooth checkout experience.

What do they THINK and FEEL?

PAINS (Fears, Frustrations, Anxieties)

- Worried about product quality and seller trustworthiness.
- Frustrated by scattered listings across multiple platforms.
- Anxious about delayed deliveries or incorrect orders.
- Concerned about the safety of online payments.

GAINS (Wants, Needs, Hopes, Dreams)

- Wants a fast and simple checkout experience.
- Hopes to find the right product quickly through search and filters.
- Needs reliable order status updates.

What do they HEAR?

Others say: Online shopping saves time and effort.

Friends say: Comparing products online is more convenient than visiting stores directly.

Family members say: Always buy from sellers with good ratings.

What do they SEE?

- Multiple products across different categories.
- Product images, prices and stock availability.
- Discounts and offers from competing platforms.

What do they SAY and DO?

- "I want it delivered quickly and at a fair price."
- Compares prices and product details across sellers.
- Adds items to cart and proceeds to checkout.
- Tracks order status from Pending to Delivered.
